

Wall hung condensing boilers

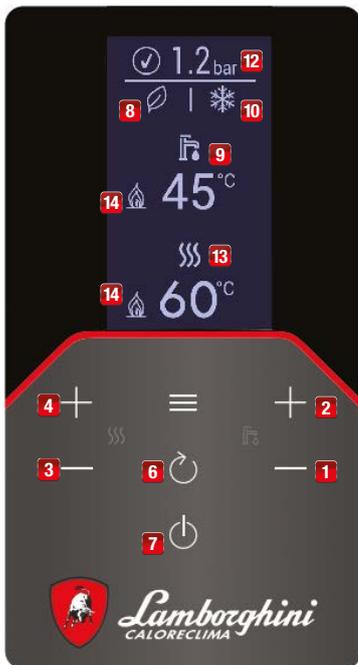

Alhena Tech K 50

Wall hung condensing boilers with instantaneous domestic hot water production

- Boiler with high thickness stainless steel primary heat exchanger, with large passes (the largest in the category) guaranteeing duration and reduced maintenance, it maintains high efficiency even on old systems with oxidation and soiling
- **SYSTEM**: combined with the modulating remote control and the external probe (optional) it reaches the top efficiency class A+
- It easily adapts to the load conditions thanks to the broad modulating range that can reach 1:10 (mod. 34)
- **MC²**: Multi Combustion Control, new combustion system with industrial-derived gas-adaptive patented technology for better adaptability of use to the varying gas network conditions (e.g. pressure fluctuations or drops)
- **M.G.R**: Methane, LPG, Propane-Air Ready with a simple configuration the boiler can run on methane, LPG and propane-air without the use of any additional conversion kits
- Exclusive exchanger-burner system with self-cooling door: it simplifies maintenance and lowers the cost thanks to a lower number of parts that need replacing.
- DHW production with 50-litre stainless steel storage tank
- Set-up for recirculation fittings (provided with the accessory: fitting connection kit)
- Hydraulic fittings covered by the boiler shell
- Large multi-purpose backlit graphic display to set parameters easily and correctly
- Bypass as per standard
- Particularly suitable for operation in flues requiring "heavy duty" pipes thanks to approval for operation with 50mm diameter flue outlets
- **F.P.S**: Flue gas Protection System. The flue gas check valve provided as per standard offers easy connection to pressurised collective flue systems (e.g. in restructuring), in accordance with regulation UNI 7129
- Designed to simplify and make normal maintenance and cleaning steps easier
- Antilegionella function with programmable timing
- Timed block protection for circulator and three-way valve
- Sliding temperature operating mode through external probe (optional)
- Low consumption modulating heat pump (ErP Ready - Class A)

Regulation and control panel

1. Decrease DHW temperature
2. Increase DHW temperature
3. Decrease Heating temperature
4. Increase Heating temperature
5. Display
6. Return key
7. "Winter", "Summer", "Appliance OFF", "ECO", "COMFORT" mode selection key
8. ECO mode on / off
9. DHW mode indication
10. "Summer" / "Winter" indication
11. Menu / Confirmation key
12. System pressure indication
13. Heating indication
14. Burner on indication

Boiler code	Boiler model
OT4T4AWD	ALHENA TECH 28 K 50 (M)
OT4T7AWD	ALHENA TECH 34 K 50 (M)

Accessories on demand

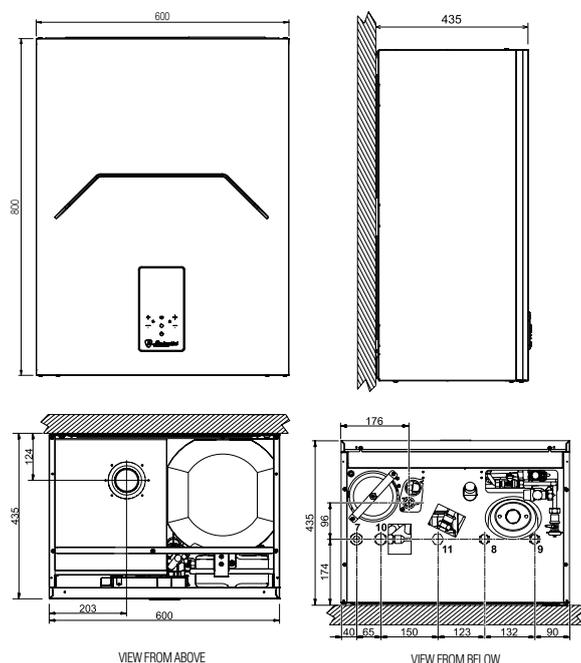

Code	Description
012045W0	kit for connection of fittings complete with gas tap with cone, DHW tap, 2 system taps, pipes, nipple, gaskets, recirculation fitting
013018X0	Outdoor probe kit
013002X0	Thermostatic mixer kit 1/2" connections
041083X0	Coupling for vertical coaxial pipe ø 100/60 mm for condensing boilers
041006X0	Coupling for vertical coaxial pipe ø 80/125 mm for condensing boilers
041084X0	90° coaxial bend, 360° swivel with 45° pitch ø 100/60 mm for condensing boilers
041082X0	discharge kit twin pipes 80/80 for condensing boilers complete with test point
